

# The Arkansas Chiropractic Society

**Presents: November 12<sup>th</sup> & 13<sup>th</sup> 2016**  
**Understanding Genetic Defects in Methylation**  
**and Their Role in Chronic Disease Using**  
**Wholistic Kinesiology**  
**Fort Smith, AR**

**Last ACS Seminar in 2016!**

## About The Instructor and Course

**INSTRUCTOR: Dr. J Dunn**, creator of Wholistic Kinesiology®, has been practicing and teaching muscle testing since 1988. She received her Doctor of Chiropractic Degree from Palmer College of Chiropractic in 1995. She is the founder and owner of the Wholistic Kinesiology Center in Albuquerque, New Mexico and the Wholistic Kinesiology Institute, Inc. She studied Touch for Health, Educational Kinesiology, Applied Kinesiology, Contact Reflex Analysis, and Kinesionics. Dr. Dunn is a member of the Association of Specialized Kinesiologists, Vice-President of Vitale Therapeutics, a non-profit nutritional research foundation, and is listed in Who's Who. Author of Wholistic Kinesiology Book and Perfect Health In Paradise, available on Amazon.

**THIS COURSE: Dr. J Dunn**, Assessment and evaluation of underlying genetic defects through Kinesiology will allow the practitioner to truly get to the causes of disease before they start. We have all been working on patients who don't respond as we like or who continually struggle with the same health issues. **If you are not looking at the genetic profile you could be treating symptoms and not true causes!**

Methylation pathways are important in detoxification of chemicals, pesticides, heavy metals, in the production and removal of adrenal hormones, in the absorption of critical nutrients such as B12, folic acid and vitamin D, in the repair of DNA and in energy production and so much more.

The healing breakthroughs have been phenomenal with many health conditions including autoimmune diseases such as Hashimotos, RA, lupus, etc.; chronic adrenal and thyroid imbalances, chronic fatigue syndrome, and with emotional challenges such as Bipolar disorder, ADD, ADHD, depression and anxiety.
