

Arkansas Chiropractic Society Presents:

Dr. Trevor Berry

Dealing With America's Health Epidemic From a Neurological Point of View

July 21 & 22, 2018
Fayetteville, Arkansas

About The Instructor and Course

INSTRUCTOR: Dr. Berry was born and raised in Alberta, Canada. He completed his pre-medicine requisites at the University of Calgary and went on to complete his Doctorate at Parker University in Dallas, Texas. He graduated Magna Cum Laude, Salutatorian and was the recipient of many academic awards including the Parker Scholastic Excellence Award. Upon completion of his Doctor of Chiropractic, Dr. Berry attended the Carrick Institute for Graduate Studies. Dr. Berry has traveled throughout North America and Europe attending neurology conferences and modules to obtain the most recent information in the field of functional neurology. He became a board certified Chiropractic Neurologist in 2001 upon passing the American Chiropractic Neurology board examination. He has over 2000 post-doctoral hours in the study of Neurology. He became interested in the field of Low Level Laser upon suffering from a severe inflammatory arthritis that almost ended his Chiropractic career. Laser therapy completely alleviated his condition so he became interested in the scientific study of how and why lasers were so effective. He went on to become lead investigator in FDA laser studies and uses lasers extensively in his neurology based practice.

THIS COURSE: *The nervous system in the human body can be the most challenging to understand and treat. We will be discussing cutting edge treatments for neurological conditions such as strokes, autoimmune diseases, basal ganglia disorders, dementia and alzheimers. Dr. Berry will take you through a patients's health history with special attention to these conditions and treatment recommendations.*
