

# Unattended Light Therapy!

## *Dynatron Xp™*

- **Big** - Covering an 8" x 10" area (over 500 cm<sup>2</sup>), the Dynatron Xp Light Pad is 100 times larger than competitive Light Probes.
- **Fast** - With 7,500 mW of power per pad, the entire low back can be treated in 4-8 minutes.
- **Flexible** - The Xp's flexibility makes it easy to treat any part of the body.

*All Dynatron Light Pads and Probes are compatible with any Solaris device, however a **BoosterBox** is required when using the Dynatron Xp™ light pad with any Solaris® 700 Series device.*
