

The Arkansas Chiropractic Society

Presents: Sacral, Occipital and Cranial!

February 27/28, 2021 Fort Smith, Arkansas

About The Instructor and Course

INSTRUCTOR: Dr. Kurt Larsen is a graduate of Northwestern College of Chiropractic. He was a past instructor with Foot Levelers and a New York Chiropractic College adjunct faculty member. He serves on the Advisory Board of Integrative Medicine, is a published author and has had various academic honors and leadership positions. He is currently in full time private practice in Hot Springs, AR.

THIS COURSE: This hands-on interactive class will add drawers to your tool chest to enable you to deal effectively with more conditions in your practice. Many of these conditions are already present in your current patient population. Becoming proficient in correcting these issues will draw more patients into your practice. We will focus on the unstable pelvis and the corresponding tense cervical and cranial areas that reciprocally respond to the pelvis. The hot SI joint, frequent soft tissue issues around the acetabular area, psoas issues, temporomandibular dysfunction, difficult cervical issues, balance issues and persistent headaches are many of the conditions you will learn to evaluate and correct. The indicator system that shows both the doctor and the patient a before and after difference will be explained, demonstrated and experienced during this course.
