

Dr. Christopher Proulx

Ricky Lee Proctor

Arkansas Chiropractic Society Presents:

Treatment Strategies in Managing Spinal Conditions & Chronic Musculoskeletal Pain with Physical Agents

September 21 & 22, 2019
North Little Rock, Arkansas

About The Instructor and Course

INSTRUCTOR: Dr. Christopher Proulx is, D.C., Ph.D.(abd), A.T.C., C.S.C.S. Dr. Proulx is a clinical consultant at DJO, LLC in the Recovery Sciences division. He is also in private practice and consultant as a physical medicine and rehabilitation specialist and performance coordinator for individuals and athletic teams and adjunct assistant professor of research at New York Chiropractic College. He holds a Doctorate of Chiropractic, PhD(abd) candidate in Exercise Science, Master's of Science in Exercise Science, and a Bachelor's of Science in Sport Management and Health Fitness. Proulx has over 20 years of experience in sport and clinical science. He has over authored and co-authored several peer reviewed publications and has presented his work across the U.S., Central and South America, China, and Europe in many different venues. He has been a consultant to several manufacturers, clinicians, athletes, and coaches at all levels. Proulx is a licensed chiropractor, certified athletic trainer, and certified strength and conditioning specialist.

THIS COURSE: The purpose of this course is to provide a foundation of current best practices in conservative application of physical agents based on current rationale. The scope is inclusive of approaches applicable to common conditions treated with modalities in the chiropractic clinic. This discussion/lecture course will also provide the participant with an overview of the effects of the modalities on specific conditions. Participants will have the opportunity to discuss treatment protocols and obtain practical experience in the implementation of the protocols.

Instructor:

Ricky Lee Proctor graduated from the University of North Carolina at Greensboro. He is the Clinical Education Manager for Chattanooga. He is a member of the National Athletic Trainers Association as well as other associations for athletes and has taught many courses on the evaluation and rehabilitation of injuries. He will be assisting Dr. Proulx in his presentation.
